

Empowering the Agriculturalists for Tomorrow

Doon School of Modern Agriculture

Doon School of Modern Agriculture at DBS Global University is a pioneering institution committed to revolutionizing agricultural education and research.

With a focus on innovation and sustainability, the school offers comprehensive programs that amalgamate traditional agricultural practices with cutting-edge technologies. It provides a multidisciplinary approach, blending theoretical knowledge with practical applications in precision agriculture, sustainable farming methods, and data-driven decision-making. State-of-the-art laboratories, experiential learning on working farms, and industry-led internships augment the curriculum, preparing graduates to tackle global agricultural challenges. The school fosters a holistic understanding of the agricultural landscape, empowering students to become forward-thinking agricultural leaders, adept at addressing food security, environmental sustainability, and the complexities of modern farming.

B.Sc Agriculture (Hons.)

Duration : 4 years

The B.Sc. Agriculture program at Doon School of Modern Agriculture is a comprehensive undergraduate degree designed to cultivate skilled professionals in the agricultural domain.

This program integrates theoretical knowledge with hands-on practical experience, covering diverse aspects such as crop science, soil management, pest control, and sustainable farming practices. The program provides insights into the latest agricultural technologies and innovations and prepares them for roles in farm management, agribusiness, and research. With a focus on fostering sustainability and environmental responsibility, the program equips graduates to address the challenges of modern agriculture and contribute to the advancement of the agricultural sector.

USPs of the Program

Holistic Curriculum

The program offers a comprehensive curriculum covering crop science, seed science, animal husbandry, and sustainable farm practices, ensuring a well-organised understanding of the agricultural domain.

Hands-on Learning

Emphasizing practical experience, the program integrates fieldwork, farm visits, and internships, providing students with real-world exposure to agricultural operations and challenges.

Research Opportunities

The program encourages research initiatives, allowing students to explore innovative solutions to agricultural issues, contribute to advancements, and engage in projects that impact the industry positively.

Sustainable Practices

The program focuses on sustainable farming techniques, instilling an eco-conscious mindset to address global challenges related to food security and environmental sustainability.

Market-oriented Approach

The program equips Students with market-oriented skills, to help understand market dynamics, consumer trends, and business aspects, making graduates adept at navigating the agricultural business landscape.

Career Opportunities

01 Agricultural Officer

02 Agricultural Consultant

03 Farm Manager

04 Quality Control Officer

05 Seed Inspector

06 Agribusiness Manager

07 Environmental Consultant

08 Research Scientist

09 Horticulture Officer

B.Sc Forestry (Hons.)

Duration : 4 years

The B.Sc. Forestry program at DBS Global University is designed to cultivate professionals with a deep understanding of forest ecosystems, conservation, and sustainable resource management.

The program explores diverse aspects of forestry, including tree biology, wildlife conservation, and forest policy. Practical fieldwork, industry exposure, and research opportunities provide hands-on skills. With a focus on environmental stewardship, graduates emerge ready to contribute to sustainable forest management, biodiversity conservation, and ecological balance, making a positive impact on the environment and local communities.

USPs of the Program

Environmental Stewardship

Emphasizes environmental responsibility, cultivating a sense of stewardship for natural resources, conservation ethics, and sustainable forest management.

Technology Integration

Leverages state-of-the-art technology, including GIS mapping and remote sensing, for precision forest management and environment monitoring.

Policy Advocacy

Provides skills to engage in policy advocacy, promoting environmentally friendly policies and contributing to the development of sustainable forestry regulations.

Entrepreneurial Focus

Cultivates an entrepreneurial mindset and explore opportunities for sustainable business ventures within the forestry sector.

Practical Fieldwork

Students Gain hands-on experience through extensive fieldwork, fostering practical skills in forest management, conservation, and resource utilization.

Career Opportunities

01

Forest Officer

02

Wildlife Biologist

03

Environmental Consultant

04

Forest Research Scientist

Plantation Associate (NHAI)

B.Sc Agri Business (Hons.)

Duration : 4 years

The B.Sc in Agribusiness is a specialized program meticulously crafted to empower professionals in the vibrant and intricate realm of agricultural business.

Seamlessly intertwining time-honoured agricultural wisdom with contemporary business acumen, this program primes graduates to navigate the nuanced landscape of the agricultural industry. It's an amalgamation of tradition and innovation, honing a skill set that enables individuals to embrace the challenges and harness the boundless possibilities inherent in the agricultural sector. By blending age-old agricultural practices with cutting-edge business strategies, this program not only equips professionals but also fosters visionary leaders prepared to innovate and thrive in the ever-evolving agricultural landscape.

USPs of the Program

Agri-Tech Integration

Cutting-edge curriculum incorporating agri-tech advancements, ensuring graduates are well-versed in leveraging technology for sustainable agricultural practices.

Supply Chain Resilience

Focus on supply chain resilience, preparing graduates to navigate complex agricultural supply networks, optimize logistics, and ensure food security in a dynamic global environment.

Sustainable Agriculture Expertise

Specialized training in sustainable agriculture practices, equipping graduates to address environmental challenges, optimize resource utilization, and contribute to eco-friendly agri-business operations.

Market Access Strategies

Comprehensive understanding of market access strategies, empowering graduates to develop effective distribution channels, expand market reach, and connect agricultural products with diverse consumer segments.

Policy and Advocacy Acumen

Emphasis on policy analysis and advocacy skills, preparing graduates to engage in shaping agricultural policies, advocating for sustainable practices, and contributing to the socio-economic development of rural communities.

Career Opportunities

Agribusiness Manager	Market Research Analyst
Commodity Trader	Agricultural Economist
Finance Manager in Agribusiness	Rural Development Specialist
Agribusiness Consultant	Food and Agricultural Policy Analyst
Agriculture Officer	Agribusiness Risk Analyst
International Agricultural Trade Specialist	

Students at Rajaji National Park

Dr. Harish Karnatak, Senior Scientist & Head Geoweb Services
Indian Institute of Remote Sensing, ISRO
(Delivering a Talk on Geoinformatics and Spatial Data Analysis)

M.Sc Agronomy

Duration : 2 years

The M.Sc. in Agronomy is a specialized postgraduate program that delves into advanced studies of crop production and management.

The comprehensive curriculum encompasses soil science, crop physiology, pest management, and sustainable agriculture practices. It provides expertise in optimizing crop yields, employing precision farming techniques, and addressing challenges in modern agriculture. With a strong focus on research, the program prepares individuals for careers as agronomists, researchers, and consultants, fostering a deep understanding of sustainable and innovative approaches to enhance global food production and meet the evolving demands of the agricultural industry.

USPs of the Program

Research Excellence

Emphasizes on research for ground-breaking studies in agronomy and addressing real-world agricultural challenges.

Holistic Approach

Provides a holistic understanding of agronomic principles, fostering well-rounded professionals ready to contribute to sustainable and efficient agriculture practices globally.

Crop Diversity Emphasis

Focuses on diverse crop cultivation methods, including sustainable practices for a variety of crops, preparing graduates for versatile roles in agricultural sectors beyond conventional farming.

Industry-Aligned Curriculum

Collaborates with leading agricultural industries to ensure the curriculum remains aligned with current industry demands and technological advancements, enhancing employability post-graduation.

Sustainable Agriculture Focus

The program emphasizes sustainable agricultural practices, equipping graduates to contribute to environmentally friendly and socially responsible farming methods, aligning with global sustainability goals.

Career Opportunities

Agronomist

Seed Inspector

Climate Change Analyst

Crop Consultant

Government Agricultural Officer

Research Scientist

Agribusiness Manager

Seed Technologist

Environmental Consultant

Environmental Conservationist

MBA Agri Business

Duration : 2 years

The MBA in Agribusiness is a specialized program meticulously crafted to empower professionals in the vibrant and intricate realm of agricultural business.

Seamlessly intertwining time-honoured agricultural wisdom with contemporary business acumen, this program primes graduates to navigate the nuanced landscape of the agricultural industry. It's an amalgamation of tradition and innovation, honing a skill set that enables individuals to embrace the challenges and harness the boundless possibilities inherent in the agricultural sector. By blending age-old agricultural practices with cutting-edge business strategies, this program not only equips professionals but also fosters visionary leaders prepared to innovate and thrive in the ever-evolving agricultural landscape.
